

## **PMA is growing once again!**

We at PMA are very excited and proud to announce that we have once again joined forces with ABB Drives! In the process, we will be under new ownership. As most of you will recall, we represented ABB Low Voltage Drives (and Controls) successfully for many years.

Starting now, July 1, 2018, we get Matt LaRue back as our Drives specialist, and we will also get our new owner Jeff Peterson, who has broad and deep experience managing ABB Sales in this territory. Plus, we once again have inside support staff. Our combined ABB Sales experience is well over 100 years, so this feels like 'going home' to us.

Our new expanded sales team brings additional resources to all of our partners. And as always, we put these powerful resources to work for all of our Principals!

Yours for continued and increasing sales growth!

Jeff Peterson
